SUMMARY

Versatile and detail-oriented Front-End Developer with nearly 4 years of hands-on experience in designing and building intuitive, scalable web interfaces using HTML5, CSS3, JavaScript (ES6+), and React.js. Experienced in leveraging UI frameworks like Bootstrap and Ant Design to craft responsive, high-performance applications. Skilled in RESTful API integration, efficient state management using Redux, Hooks, and Context API, and in delivering seamless user experiences through collaboration with cross-functional teams.

SKILLS

Front-End: React.js, Redux, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Ant Design, FreeMarker

Back-End: Node.js, Express.js, MongoDB

Tools & Platforms: Git, GitLab, Postman, Figma, Litmus, NPM

Testing: Cross-browser and cross-platform compatibility testing using Litmus

EXPERIENCE

Software Engineer – Product and Platform Engineering

Altimetrik (Client: Intuit) | *Sept 2024 – Apr 2025*

- Designed cross-platform, mobile-friendly email templates using HTML, CSS, and FreeMarker for Intuit's OINP platform.
- Integrated modular content blocks and dynamic data to enable personalized messaging.
- Performed client rendering validation across multiple email platforms using Litmus.
- Improved email delivery performance by minimizing inline styles and optimizing media usage.

Software Developer – Front-End

WayCool Foods and Products Pvt. Ltd (CensaNext) | *Jul 2021 – Sept 2024*

- Led front-end development for multiple enterprise-level React applications using modular architecture and reusable components.
- Engineered API-driven features for real-time data handling and improved user interactivity.
- Employed Redux, Context API, and React Hooks for streamlined and scalable state management.
- Built adaptive layouts and responsive UIs utilizing Bootstrap and Ant Design.
- Participated in code reviews, performance tuning, and adherence to development standards.
- Translated high-fidelity designs from Figma into robust and accessible web components.

PROJECT

Intuit MSE Correspondence

Company: Altimetrik (Client: Intuit) | *Sept 2024 – Apr 2025*

Tech Stack: HTML, CSS, FreeMarker

- Developed dynamic email templates tailored for multiple devices and email clients.
- Embedded conditional content and ensured consistent rendering via Litmus testing.

NAGA (Admin & Finance)

Company: CensaNext | *Jun 2023 – Sept 2024*

Tech Stack: JavaScript, React.js, CSS, Bootstrap, Redux

- Created workflow modules to streamline administrative and financial processes.
- Integrated data visualization using charts and maintained application state with Redux.

DigitalCFO (Funds & Allowance Management)

Company: CensaNext | *Aug 2022 – May 2023*

Tech Stack: JavaScript, React.js, CSS, Bootstrap, Context API

- Built a responsive financial management platform accessible across all screen sizes.
- Focused on component reusability and performance optimization for better UX.

EDUCATION

Galgotias University, Greater Noida — *BCA+MCA(Integrated)* [2015 - 2020]

Mary Lucas School & College, Prayagraj — *ISC (Intermediate)* [2012 - 2014]

Boys High School & College, Prayagraj — *ICSE (High School)* [2010 - 2012]

CERTIFICATIONS

Be Practical Institute

MERN Stack Development [2021]

- Completed intensive training covering MongoDB, Express.js, React.js, and Node.js.
- Learned to create REST APIs with Node.js and Express.js
- Implemented front-backend integration, authentication, routing.
